CODES ADOPTED BY THE STATE OF UTAH

***THE FOLLOWING CODES HAVE BEEN ADOPTED BY THE
STATE OF UTAH EFFECTIVE JANUARY 1, 2007:***

2006 International Building Code

2006 International Residential Code

2006 International Plumbing Code

2006 International Mechanical Code

2006 International Fuel Gas Code

2005 National Electrical Code

2006 International Fire Code

2006 International Energy Conservation Code

The following codes or standards are incorporated by reference and approved for use as the construction standards which may be applied to existing buildings with the approval of the Building Official:

1. The 1997 edition of the Uniform Code for the Abatement of Dangerous Buildings.
2. The 2006 edition of the International Existing Building Code.
3. ASCE 31-03, Seismic Evaluation of Existing Buildings, promulgated by the

American Society of Civil Engineers.

4. Pre-standard and Commentary for the Seismic Rehabilitation of Buildings (FEMA 356)

Amendments: The State of Utah has adopted amendments to the above codes. The amendments can be found at the **Utah Uniform Building Standards Act Rules, R156-56** ([Utah State Building Standards](#))

ADA: Drawings and specifications shall comply with all current accessibility requirements and Federal regulations. When there is a conflict between the ADA requirements and the State adopted codes, the more restrictive shall apply.
